

PAYAR ISLAND PACKAGE EX-PEN

The Pulau Payar Marine Park is situated in the northern part of the Straits of Malacca, near Kuala Kedah and thirty kilometers south of Pulau Langkawi. It is a very popular tourist destination.

Pulau Payar offers four sandy beaches, which combine to provide a total length of about 200 meters. Teeming with coral reefs, the waters surrounding the four islands have an average visibility of between 9 to 15 meters, making the marine park an ideal place for scuba diving, snorkelling, swimming, and picnicking. Two tracking trails have also been made available for visitors to explore the flora and fauna of the island. These tracks appear to be underutilized as few visitors are even aware of their existence. Other amenities provided include picnic tables, barbecue pits, gazebos, and restrooms at strategic points.

Ex-Penang
